

DEATH IS DEAD... REAPER IS LIFE.

“Reaper” represents an awakening from the darkness of the Reaper and an awareness of the afterlife. Through my experiences I have come to know that life lives beyond death for which the Reaper represents. For years I have studied and investigated the paranormal, and through these interactions the Reaper has come alive to me in the form of spirit manifestations.

As our emblem signifies, the Reaper does not look at you... he turns and bows his head into submission. Reaper knows we have found life beyond him and he can no longer intimidate us. Those who bear the Reaper brand are allured to the mysterious world of the paranormal and otherworldly dimensions. We find the dead more interesting than the living and we welcome the conjuring of spirits...we have heard, felt and seen them. We don't care about how this world views us.

Darkness Reborn...We are Reaper.
